SATYAM JAIN

AI Engineer — LLM Safety & Applied Machine Learning

Indore, India • +91 95847 19105 • jainsatyam26@gmail.com
linkedin.com/in/jainsatyam26 • github.com/sjain26 • huggingface.co/jainsatyam26 • pypi.org/project/pii-protector

SUMMARY

AI engineer with 4+ years building and shipping generative AI systems, now specializing in LLM safety — content-safety guardrails, prompt-injection defense, and low-latency PII detection. Experienced across the full stack of AI-first platforms: foundation and open-weight LLMs, RAG, multi-agent orchestration, self-hosted inference, and classical ML. Author of **pii-protector** on PyPI and 35+ open guardrail models on Hugging Face.

EXPERIENCE

AI Engineer — SAF3AI Inc, Indore

Jan 2026 – Present

- Built **content-safety guardrails** covering both text and image, running inline in production with per-tenant policy thresholds and audit logging.
- Implemented **LLM security-testing frameworks** — prompt-injection detection, data-leakage prevention, and model-behavior analysis.
- Designed **multi-agent orchestration** systems with task delegation and inter-agent communication; built reusable agent SDKs that cut prototyping time by ~40%.
- Developed enterprise security-compliance tooling with automated policy checks and audit-trail generation.

Senior Gen AI Developer — NOBORDER.z Innovations, Indore

Jul 2022 – Nov 2025

- Led **AvatarChat**, a multilingual customer-support AI: text-to-speech with 2D avatar rendering, RAG over company documentation, and automated ticket raising with human handoff on low confidence.
- Built an **automated interview platform** — ATS resume screening and scoring, dynamic assessment generation, real-time answer evaluation, and live video analysis for proctoring.
- Architected a **multi-tenant chatbot platform on Amazon Bedrock** (Claude + Titan) with per-tenant isolation, vector-embedding RAG, and a fine-tuning pipeline, serving 1000+ concurrent users.
- Delivered voice AI for **Xana Genesis** — Japanese TTS via VoiceVox, multilingual STT with noise removal, and emotion-driven avatar animation; deployed on AWS EC2 with Docker.
- Built 3D-asset generation using sentence-transformer similarity against a Unity asset database, plus a Stable Diffusion image/video pipeline (ControlNet, AnimateDiff).

Python Developer — Webllisto Technologies, Indore

Jan 2022 – Mar 2023

- Developed Python modules for an ERP system, improving operational efficiency by 30%.
- Built a Django e-commerce platform with authentication, payment integration, and inventory management.

OPEN SOURCE & PROJECTS

pii-protector (PyPI, v2.2.5) — Production-grade PII detection using a 4-layer sequential ensemble; 90%+ of text is resolved by a sub-3ms regex layer, escalating to NER transformers only when needed. Detects 50+ types incl. SSN, credit cards, Aadhaar, PAN, GSTIN, and API secrets.

Mamba safety classifiers (Hugging Face) — Trained state-space (SSM) models for prompt-injection and safety classification with linear-time long-context handling; published as mamba-shield and mamba-shield-v2.

Self-hosted LLM deployment — Served open-weight LLMs in-house with **vLLM** and **Ollama** for privacy- and compliance-constrained workloads; quantized and ONNX-exported variants for constrained hardware.

SKILLS

Languages	Python, C++, JavaScript, SQL
ML / Deep Learning	PyTorch, TensorFlow, Keras, scikit-learn, Transformers, fine-tuning
LLM & NLP	LangChain, OpenAI SDK, Claude SDK, embeddings, vector search, RAG, spaCy, NLTK
AI Safety	Guardrail fine-tuning, prompt-injection detection, PII detection, Llama Guard, Prompt Guard, red teaming

Architectures	Transformers, Mamba / state-space models, ONNX Runtime, INT8 quantization
LLM Serving	vLLM, Ollama, self-hosted & offline deployment, FastAPI
Cloud & Infra	AWS Bedrock, EC2, SageMaker, Amazon Transcribe, Docker
Voice & Vision	Whisper, VoiceVox, TTS/STT, OpenCV, Stable Diffusion, ControlNet

EDUCATION

M.Tech, Data Science — School of Data Science & Forecasting, Devi Ahilya Vishwavidyalaya (DAVV), Indore

B.E., Electronics & Communication Engineering — Shri Vaishnav Institute of Technology & Science, Indore (2013–2016)
